About Us

RAYMAGIC Green Energy (Pvt) Ltd is an end-to-end solution provider for our client's solar needs. Our core essence lies in providing the most cost-effective solar solutions, following the best practices in installation and commissioning for 1-tier A-grade PV solar power projects for grid-connected, hybrid, and off-grid solutions for residential, commercial, and industrial consumers.

As a leading solar solution provider, we offer a comprehensive range of innovative services, including solar panel installation, energy-efficient solutions, and sustainable power systems for diverse applications. By choosing Raymagic, you're not just embracing solar energy; you are joining us on a journey towards a brighter & greener India and supporting a noble cause to reduce carbon footprints.

What We Do

At Raymagic Green Energy, we specialize in providing innovative solar solutions that empower India's transition towards sustainable energy sources. Our expertise lies in designing, implementing, and maintaining cutting-edge solar systems for residential, commercial, and industrial clients across the nation. By harnessing the power from the sun, we offer a range of comprehensive and tailored solutions, including solar panel installations, energy storage systems, and efficient grid integration. We are empaneled for PM Surya Ghar : Muft Bijali Yojana and registered vendor with MNRE for solar schemes.

Our dedicated team of professionals collaborates closely with clients to understand their unique energy needs, ensuring the delivery of cost-effective, reliable, and eco-friendly solutions that contribute to a greener and more resilient carbon-free future for India.

Message

Yogesh Dattatraya Gosavi

CEO - Managing Director
Raymagic Green Energy (Pvt) Ltd.

I am honoured to address you as the CEO and Managing Director of Raymagic Green Energy (Pvt) Ltd, a leading solar energy company committed to driving positive change in the world. We believe in the power of solar energy to transform our planet and create a sustainable future for generations to come.

We are dedicated to driving the clean energy revolution through solar power. As the CEO of this innovative company, I am proud to lead a team of passionate individuals committed to positively impacting the environment and society.

Our mission is to provide cutting-edge solar solutions that empower individuals, businesses, and communities to embrace renewable energy and reduce their carbon footprint. We are driven by a vision of a world powered by clean and reliable solar energy, where everyone has access to affordable and sustainable power.

With a focus on technological advancements, environmental stewardship, and customer satisfaction, we strive to be the preferred provider of solar solutions. Together, let's harness the power of the sun and create a sustainable world for generations to come.

Warm regards,

Yogesh Dattatraya Gosavi

VISION & MISSION

VISION

Our vision is to create a world powered by solar energy, where sustainability is the norm and clean, reliable power is accessible to all. We are dedicated to being the leading provider of innovative solar solutions, delivering exceptional value to our customers. Through our unwavering commitment to technological advancements, and customer satisfaction, we strive to drive the global adoption of solar energy and pave the way for a brighter and more sustainable future."

MISSION

Our mission is to accelerate the adoption of solar energy as a clean and sustainable power source. We aim to make solar energy accessible, affordable, and reliable for all, contributing to a greener and more sustainable future.

Why Choose Us

Why RAYMAGIC

WHY US

Raymagic Green Energy (Pvt) Ltd is a leading provider of innovative solar solutions, dedicated to driving the transition toward a sustainable and clean energy future. With a strong commitment to environmental stewardship and technological advancements, we offer a comprehensive range of solar products and services that cater to the diverse needs of individuals, businesses, and communities. At Raymagic, we understand the immense potential of solar energy in addressing the global energy challenges. We are empanelled with MNRE for the PM Surya Ghar : Muft Bijali Yojana Solar Subsidy.

OUR TEAM

At Raymagic Green Energy, our team is made up of passionate professionals who come together with a shared enthusiasm for advancing solar solutions. Our team brings a mix of knowledge in engineering and renewable energy, adding valuable insights to our work.

SOLAR SOLUTION PROVIDER

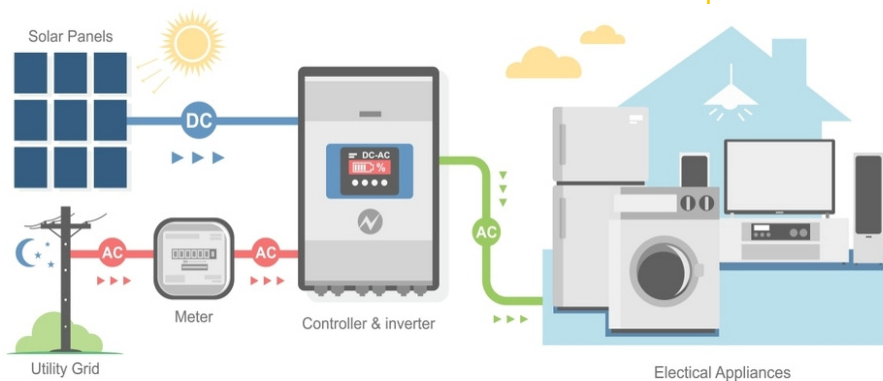

Energy has come a long way since it was discovered. We combined this discovery with technology, employing it in our various facets of life. Its value is incomparable and undeniable. But in the wake of climate change threats, we need to find alternatives to substantially decrease our dependence on conventional energy.

RAYMAGIC is strongly focused in providing most Cost Effective Value solar solutions with best practices in Installation and Commissioning for PV Solar Power Projects both Grid-connected and Hybrid solution for Residential, Commercial and Industrial customers. We have extended services in On-Grid and Hybrid solar solution systems for residential consumers. We provide solar solutions that are:

On-grid Solution

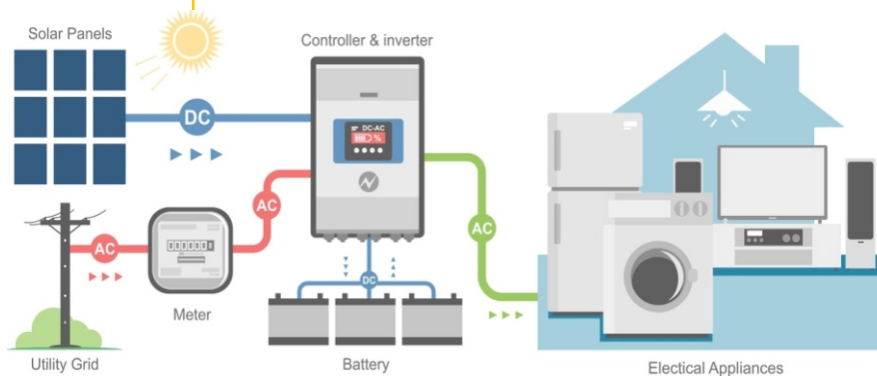

An on-grid solar system, also known as a grid-tied system, is a solar power setup connected to the local electricity grid. It efficiently generates electricity from sunlight and feeds any excess power back into the grid, earning credits or payments. This system provides a cost-effective way to reduce energy bills and contribute to a cleaner environment by utilizing solar energy while maintaining a connection to the traditional power grid for consistent supply.

— On-grid Inverter working —

Hybrid Solution

A hybrid solar system seamlessly combines the benefits of both grid-tied and off-grid systems. It harnesses solar energy to power your home and charges a battery bank for backup during outages or when solar production is low. This versatile system offers reliability, allowing you to enjoy the independence of off-grid living while staying connected to the grid for additional power security. It's an ideal solution for regions with inconsistent grid availability or frequent power interruptions.

OUR PROJECTS

We have successfully implemented diverse solar projects across India, catering to residential, industrial, commercial, and agricultural solutions. Our portfolio showcases our expertise in delivering tailored solar solutions that meet specific energy requirements. From large-scale industrial installations to smaller residential setups, our projects are a testament to our commitment to sustainable energy transformation nationwide.

Our services include customized system design, seamless installation, and ongoing maintenance, ensuring reliable and efficient solar energy utilization. With a commitment to a greener future, we specialize in providing sustainable SMART Energy solutions for India's diverse needs.

Our nationwide presence ensures that clean and efficient solar power is accessible to all, contributing to a brighter and more sustainable India. With a robust track record, we've successfully installed over 180 systems across India. Our combined installed PV capacity now surpasses 5.12 MW+, a testament to our commitment to sustainable energy solutions.

BANK FINANCING

With the PM Suryaghar Portal, Hon'ble PM Shri. Narendra Modi Ji has introduced comprehensive solar financing facilities designed to facilitate the common man's needs. Under this initiative, any Indian citizen can access financing at a competitive interest rate between 7.5% and 10.5% with terms extending up to 7 years for ample repayment flexibility. This strategic move aims to encourage sustainable energy uptake, making solar solutions more accessible and affordable for everyone.

In line with these efforts, Raymagic Green Energy (Pvt) Ltd. takes pride in having an MOU with leading banks and NBFCs offering solar finance. This partnership empowers customers to access convenient and competitive financing solutions for their solar projects. With this collaborative approach, the path to clean energy becomes increasingly accessible, empowering individuals to embrace sustainable solutions while also enjoying financial benefits. Join us in harnessing the power of the sun while securing favorable financing through our esteemed banking partners.

Very good experience with Raymagic. Every crew member is properly trained, polite, experienced and understand client needs perfectly. After sales, maintenance, service is comfortable and prompt. They have command over solar need very well. They are Definitely recommended by us.

Hemant Shah

Secretary Chaitanya Nagar CHS

Neat and Best installation. Installation team came on time as per schedule. They were very co-operative, quick with the queries regarding installation. They were open to suggestions for best place to install the system. All team was very much Professional. Thank you for bringing Renewable energy to our home "Raymagic and team".

Shreeram Bhawe
